

Canada Medical Record, Vol. 22 (Classic Reprint) (Paperback)

Filesize: 7.67 MB

Reviews

This type of book is everything and helped me seeking forward and a lot more. We have go through and so i am confident that i will planning to read again again later on. You will like just how the blogger create this ebook.

(Lilla Stehr)

CANADA MEDICAL RECORD, VOL. 22 (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Canada Medical Record, Vol. 22 In many cases, club-hand is associated with club-foot, or some other abnormality of development. The direction of the deformity may be either in flexion, extension, abduction and adduction, or a combination of the two, the most frequent being the radio-palmar variety. In those cases where all the bones of the hand and forearm are present, the prospects of a good result are more favorable than where there is absence of one or more bones, and in these milder cases, when seen early, it is sometimes possible to restore the hand to proper shape and function by constant manipulation and rotation of the parts, which are to be held in their improved position by some fixed dressing, as the plaster-of-Paris bandage, the dressing being changed from time to time as the deformity is reduced. Section of the tendons, ligaments or fascia may be necessary if the case is not seen in the early stages. Many of these structures are so situated as to make open section preferable to the subcutaneous method; and if the flexor tendons have to be divided, it would seem better to operate in the forearm instead of the hand, and to split the tendons longitudinally, and after having gained such additional length as was needed by sliding the ends past each other, to suture them together once more. In an aggravated case of congenital club-hand and club-foot of the right side, associated with lateral curvature of the spine, the author had operated in the following manner: The club-hand was very marked. The radius and thumb were absent, as well as the first metacarpal bone and a certain...
