RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 84 pages. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1977 Excerpt: . . . continuing type on the distribution and abundance of marine birds. Some studies are in progress, however. The California Department of Fish and Game in cooperation with Moss Landing Marine Laboratories conducted bimonthly surveys along a fixed transect in Monterey Bay through 1975. The Department tried to continue these surveys on a monthly basis but other priorities prevented surveys from being made after the end of May 1976. Point Reyes Bird Observatory makes weekly censuses of birds in the Gulf of the Farallones. California State University, Humboldt, conducts regular offshore surveys out of Eureka. The R. V. Alaska (Cal. F and G) records sightings of marine birds as the interest of the scientists permits. The Department personnel have censused offshore birds monthly in Morro Bay since the spring of 1975. Point Reyes Bird Observatory regularly censuses several large estuaries and coastal bays of central California. Censuses of birds in coastal bays and...

### Reviews

*This pdf may be worth getting. It is actually written in straightforward words and not difficult to understand. You will not feel monotony at any moment of your respective time (that's what catalogs are for about should you request me).*

-- **Miss Golda Okuneva**

*Absolutely one of the better ebook We have ever study. it had been writtern quite completely and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
