Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Nutrition and Clinical Dietetics The Authors present the second edition of Nutrition and Clinical Dietetics with the hope that it may be found increasingly useful to the general student body as well as to the practitioner. In Parts I and II there has been made an adequate revision of the chapters on Energy, Metabolism and Digestion, particularly with regard to the physiology of digestion; also an entire revision of the chapter on Vitamines, and as well a new chapter on Metabolism in Pregnancy and Lactation together with the Feeding of Children over Two Years Old. In Part III there has been a general overhauling of the material in the light of the more recent literature. To Part IV there have been added some fifty odd pages of new material gathered from a careful review of the subject of Dietetics in Disease as found in the publications of the past three years. These additions have been chiefly in the form of the amplification of already existing chapters. In all parts of the book obsolete matter has been eliminated.
