

Algorithmic Barriers Falling: P=np? (Paperback)

By Donald E Knuth, Edgar G Daylight

Lonely Scholar, United States, 2014. Paperback. Book Condition: New. 228 x 146 mm. Language: English . Brand New Book ***** Print on Demand *****. A prize of \$10 from Blum, \$10 from Meyer, 4 from Paterson and 30-DM from Schnorr is offered to anyone who first solves the Cook-Karp problem whether $P = NP$. Blum bet \$100 that $P \neq NP$ against Paterson's \$1 that $P = NP$. -- SIGACT News, January 1973, page 3 These playful bets capture youthful optimism in Complexity Theory. Did Donald E. Knuth share this optimism at the time? And how did the findings of complexity theorists interlace with Knuth's pioneering work in the Analysis of Algorithms? By investigating Knuth's developing thoughts on the theoretical underpinnings of efficient computation, this book sheds light on Knuth's present-day conjecture that $P = NP$.
