Not illustrated. 1907 Excerpt: . machines have been made in the past, most manufacturers would now prefer to supply it as a four-pole machine. It is proposed in this chapter, however, to deal with only two-pole machines, leaving considerations of the multipolar type for a subsequent chapter. From the given requirements we have--waits output = 50,000 volts =200 ctirrent = trt = 25 amps. Armature reaction limits the largest-size bipolar armatures to something like 2 feet in diameter, and it may be taken that the smaller the diameter the better. We have also to keep in mind the best proportions of diameter and length for whichever type we propose to use. For this size a ring winding would be unsuitable, and with a drum armature, we have seen that the length of core, in the largest sizes, should be about twice the diameter. The correct proportions may be found by...

Absolutely among the best book We have ever study. It is actually writter in easy words instead of hard to understand. I found out this publication from my i and dad encouraged this book to find out.

-- **Kristina Rippin**

The most effective publication i ever study. I am quite late in start reading this one, but better then never. You wont sense monotony at whenever you want of your time (that's what catalogs are for concerning in the event you ask me).
